## Etiquette Corner

### Punctuality

Always show up for class on time. In fact, arriving early is best. When you are late, not only do you miss precious minutes of training, but you can also disrupt the flow of class. Of course, unexpected things happen, such as rush hour traffic, or breakdowns, but do not make being late a habit. For our young students who rely on their parents to get them to class, do you part and get ready for class without being reminded. Have your uniform on, shoes ready, and all your equipment, and politely remind your parents you like to be early to class to show respect.
