Symbolism of bowing:

Where and how we bow has meaning. Bowing upon entering the school symbolizes leaving all the negative in your life outside. Bowing upon entering the training floor symbolizes all your mental and physical energy is dedicated to your training. Bowing to your instructor symbolizes the gratitude for their patience and energy they give you while training you. Bowing to your partner forms and agreement of respect and a responsibility for their safety. Bowing is not for being submissive, bowing is for your inner development.
